Step 4: Extract Data to MS Excel and/or save as a dataset for future download from Client Centre Home

MyPCI Price Histories

For clients of Monthly Report Services + Strategic Data Services

Client Centre Home | **MyPCI Data** | Library | Conferences & Events

MyPCI Price Histories

Current Dataset:

Create, edit, save and share datasets

1. Select Criteria

Start Date: View Data: Monthly Quarterly Show Results: Excel File On Screen As Chart

End Date: Include Exchange Rates

Step 2: View results monthly or quarterly. Choose to extract data into MS Excel or view on screen as data or chart

Step 1: Select date range:
 Monthly Report Clients >>3 years
 Strategic Data Clients >>10 years

2. Select Prices

Filter by Region: Filter by Product:

- United States; Natural Gas; US Gulf; Delivered; \$/mmbtu
- Far East; Ethylene - NE Asia; Spot; CIF; \$/tonne
- United States; Ethylene; Contract; Delivered; ¢/lb
- West Europe; Ethylene; Contract; Delivered; ¢/tonne
- West Europe; Mixed Xylenes; Spot; FOB; \$/tonne
- United States; Mixed Xylenes; US Gulf; Contract; FOB; ¢/gallon
- United States; Mixed Xylenes; US Gulf; Spot; FOB; ¢/gallon

Step 4: Choose price range, currency and unit

Step 3: Select prices, using region and product filters if required. Click 'Add Selected Prices' to proceed to next stage before extracting data

3. Select Price Range

Prices Selected: 3 (Maximum of 10)

<input type="button" value="Remove"/>	United States	Mixed Xylenes; US Gulf; Contract; FOB; ¢/gallon	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Mid	<input type="checkbox"/> High	<input checked="" type="radio"/> Original Currencies
<input type="button" value="Remove"/>	United States	Paraxylene; Contract; Delivered; ¢/lb	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Mid	<input type="checkbox"/> High	<input type="radio"/> Convert to \$/tonne
<input type="button" value="Remove"/>	United States	PTA; Contract; Delivered; ¢/lb	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Mid	<input type="checkbox"/> High	<input type="radio"/> Convert to \$/tonne

Step 5: Extract Data as chosen in Step 2 or save as a dataset for future download from Client Centre Home

MyPCI Price Pages

For clients of Monthly Report Services

Tailor your Monthly Price Page to show only the prices you need each month. The output is formatted as the Monthly Report page 3 Price Page, showing previous quarter, last month and current month prices

Create, edit, save and share datasets

Step 1: Choose Monthly Report issue

Step 2: Choose prices (availability dependent on Monthly Report subscription)

Step 3: Extract the price page to MS Excel and/or save as a dataset for future download from Client Centre Home

Using MyPCI Datasets

What is a Dataset?

- ✓ A Dataset is a unique set of parameters which are selected, named and saved by you, and which define a particular set of data.
- ✓ The datasets created by you are only accessible from your own profile, unless you choose to share any of them with your colleague(s).
- ✓ Datasets can be set up for supply/demand data, price history data and Monthly Report price pages – dependent on which subscription you have with PCI Xylenes & Polyesters.
- ✓ Datasets can be created in the relevant MyPCI Data section of the website, and can be retrieved by you at any time from the MyPCI Data pages, or from the Client Centre Home page.
- ✓ When data is extracted using a dataset it will automatically contain the very latest available data, with no need to re-input all your parameters.
- ✓ Data from the MyPCI Data pages can be extracted without the use of a dataset. In that case the profile will not be saved for use in the future.

Create a new Dataset

1. The very first time you log into PCI Online your default datasets will be empty. They will remain empty until you create and save your own datasets.
2. To set up a dataset, click on <MyPCI Data> from the main grey menu at the top of the home page.
3. Select Supply/Demand or Price Histories or Price Pages from the drop down menu.
4. Make your selection of the data, timing etc.
5. Click the <Save As> button in the sub-menu bar and input a name for your dataset, click <Save>.
6. Your new dataset will appear in the heading box.

Using MyPCI Datasets

Extract the data from a Dataset

You can extract the data from your dataset from Client Centre Home (login landing page), or from the relevant MyPCI Data page. In either case the data downloaded will automatically be the latest available from our databases

1. In Client Centre Home select your dataset from drop-down box under MyPCI Data Searches, and click <Download>.
2. In MyPCI Data go to the relevant page. Open the required dataset and click <Extract Data>.

Edit an existing Dataset

You can edit a dataset at any time

1. In the required MyPCI Data page, click <Open>.
2. Using the drop down box, select the dataset to edit. The selected dataset will open.
3. Change the data criteria and/or data types as required.
4. Click <Save> to save changes to the dataset OR click <Save As> and rename your dataset. Your new dataset will appear in the heading box.

Share your Datasets

If you want your colleague(s) to download the same customised data report as you, you can share your dataset by sending it to their login profile

1. In the relevant MyPCI Data page, <Open> the dataset you want to share.
2. Click the <Share> button.
3. Follow the instructions to send an email alert to your colleague.
4. Your colleague receives the email, opens the link you have sent, logs in to PCI Online with their own username and password and your dataset will have been added to their datasets profile.

Trade Data Search

For clients of Monthly Report Services + Strategic Data Services + Mid-term Monthly Balance Forecast

Client Centre Home | **MyPCI Data** | Library | Conferences & Events

Trade Data Search
